SUMMARY

Recent BS Computer Science graduate specializing in web development, with experience in Node.js, Express.js, EJS, and strong skills in HTML, CSS, and JavaScript. Knowledgeable in MySQL and PostgreSQL, with a focus on building scalable, user-centered full-stack applications while continuously learning modern technologies.

EXPERIENCE

Web Developer Intern

GeoPro Global Solutions Inc.

December 2025 - March 2026, Clark Freeport Zone, Pampanga

- Developed and implemented an **interactive, user-friendly website** by handling both **front-end** and **back-end** development.
- Designed **responsive interfaces**, optimized **user experience**, and ensured **seamless functionality** across features.
- Contributed to building a **high-quality recruitment platform** by integrating **system components**, managing **data flow**, and supporting overall website performance and usability.

PROJECTS

Recruitment Web Application

GeoPro Global Solutions Inc. • February 2026 - April 2026

- Assisted in developing a **job recruitment platform** for managing applications and postings.
- Built responsive UI using **Next.js**, **Tailwind CSS**, and **Shadcn components**.
- Used **Supabase** for database management and authentication.
- Implemented **form validation** to improve data accuracy.
- Collaborated with the team and ensured **cross-device usability**.

Nova Foma Web Interface Recreation

Personal Project • December 2025 - January 2026

- Recreated the **Nova Foma website interface** to practice modern **UI/UX design and layout techniques**.
- Built the frontend using **Next.js** and **Tailwind CSS**.
- Implemented **animations and transitions** using **GSAP** for smoother interactions.
- Focused on **responsive design** to ensure consistency across devices.
- Paid attention to **layout accuracy**, **spacing**, and **visual hierarchy** based on the original design.

StockRoute

Academic Project • September 2025 - September 2025

- Contributed to a **group stock tracking web application** using **React** and **Supabase**.
- Designed and implemented the **entire UI/UX** for a responsive and user-friendly interface.
- Conducted testing to ensure features works correctly and the application performed smoothly.
- Assisted with data handling and display using **Supabase** for real-time stock information.

EDUCATION

Bachelor of Science in Computer Science

Holy Angel University • April 2026

- President's Lister (1 semester)
- Dean's Lister (4 semesters)

SKILLS

- React, Next.js, Tailwind CSS
- Node.js, Express, EJS, Supabase
- JavaScript, Python
